### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher J. Voci on 11/21/06. The application has been amended as follows:  
Claims 1 and 10 have been amended as follows:

1. (currently amended) An appliance comprising:

a temperature regulation system comprising a convex portion and a Peltier device having an active side and a waste side

a cook vessel in contact with the active side, the cook vessel comprising a removable lid and having a concave portion disposed at the bottom portion of the cook vessel matched to the convex portion of the temperature regulation system; and

a waste side distribution system,

wherein the Peltier is located underneath the cook vessel and the active side provides temperature regulation to the cook vessel.

10. (currently amended) A method comprising:

contacting a cook vessel, having a concave portion, with a Peltier device wherein the Peltier device is located underneath the cook vessel, wherein a thermally conductive material having a convex portion matched to the concave

Art Unit: 3744

portion of the bottom part of the cook vessel separates the Peltier from the cook vessel; and

cooking uncooked ingredients in the cook vessel until edible.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: Claim 1 and 10 are allowable because the prior art of record fails to disclose or suggest or teach the recited matching of convex portion of the thermally conductive material with the concave bottom portion of cook vessel (to avoid direct contact of cook vessel with the Peltier element).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad M. Ali whose telephone number is 571-272-4806. The examiner can normally be reached on maxiflex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl J. Tyler can be reached on 571-272-4808. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
